Prior to founding Greenwell Energy Solutions in 2012, Mr. Shaper served as the CEO of CapRock Communications where he led its acquisition from McLeod in 2002 through to its sale to Harris Corporation in 2011. CapRock is a global satellite communications provider serving the energy, government and maritime industries. During his tenure, CapRock grew from a primarily domestic player with \$30 million in revenue to the leading global player in its market with over \$600 million in revenue. Mr. Shaper is also a founding partner of Houston-based private equity group Genesis Park. Previously, Mr. Shaper was the president of Donnelley Marketing, a division of First Data Corporation. He was directly responsible for the turnaround of the \$100 million revenue database marketing company which led to a successful sale to a strategic buyer. We believe Mr. Shaper's significant experience as a senior executive officer of sophisticated companies such as Greenwell Energy Solutions, CapRock Communications, Inc., Genesis Park LP and Donnelley Marketing/First Data Corporation, as well as his experience founding and leading IMG, make him well qualified to serve on our board of directors.

He is the president and chief operating officer of Arthur Andersen LLP, and has been since 2003. We believe Mr. Niemann's significant experience in the public accounting industry, including 35 years in various capacities at Arthur Andersen LLP, makes him well qualified to serve on our board of directors. Drawing on this experience, Mr. Niemann is able to provide valuable insights regarding our investment strategies, internal controls, and financial reporting. Corporate Leadership Structure

Since our inception, Mr. Hazen has served as chairman of our board of directors and, until March 15, 2013, as our chief executive officer, at which time he was replaced by Ms. Schugart. Mr. Hazen is an "interested person" of the Company as defined in Section 2(a)(19) of the 1940 Act. Our board of directors believes that, due to his tenure as our chief executive officer since our inception until March 15, 2013, Mr. Hazen is the director with the most knowledge of the Company's business strategy and is best situated to serve as chairman of our board of directors. Our Charter, as well as regulations governing BDCs generally, requires that a majority of the board of directors be persons other than "interested persons" of the Company, as defined in Section 2(a)(19) of the 1940 Act. The board of directors does not currently have a lead independent director. Our board of directors believes that its current leadership structure—a chair of the board of directors who is separate from the Company's chief executive officer and committees led by independent directors—is the optimal structure for the Company at this time because it allows the Company's directors to exercise informed and independent judgment, and allocates areas of responsibility among committees of independent directors and the full board of directors in a manner that enhances effective oversight. The board of directors is of the opinion that having a majority of independent directors is appropriate and in the best interest of the Company's stockholders, but also believes that having two interested persons serve as directors brings both corporate and financial viewpoints that are significant elements in its decision-making process. Our board of directors will review its leadership structure periodically to ensure that the leadership structure remains appropriate and will make changes if and when it determines such changes are necessary or proper.
